sourcing@ninicorporation.com

Nini Corporation has provided sourcing and inspection services since 1999 to companies across Europe, the United Kingdom and North America. We represent international buyers on the ground in Karachi — not as a trading intermediary, but as the quality, compliance and delivery team inside the supply chain. Our objective is unchanged since 1999: complete peace of mind for our clients.

SERVICES

Price Negotiation

Price negotiations with local factories to secure maximum benefit for our clients.

Lead-Time Planning

Lead-time planning with vendors to keep every order on a realistic, tracked schedule.

Daily Quality Monitoring

In-line inspections, shade approvals, and trims & accessories approval, every day.

Production Monitoring

Daily production tracking to ensure on-time deliveries at every stage.

Pre-Shipment Inspection

Pre-shipment inspection and container sealing to prevent issues before they reach you.

Status Reporting

Weekly status reports by email plus live online updates with a unique login.

Shipment & Logistics

Shipment and logistics planning coordinated around your delivery windows.

Documentation Review

Vendor shipment documents checked and approved before bank submission for timely dispatch.

PROCESS

Vendor Sourcing

We identify and vet factories from our established vendor panel against your product and volume needs.

Price & Lead-Time Negotiation

Terms negotiated directly with the factory to secure the best value and a realistic delivery schedule.

Production Monitoring

Daily quality and production monitoring, including in-line inspection, shade and trims approval.

Compliance & Audit

Factory, social, security, technical and environmental audits against local, international or C-TPAT requirements.

Pre-Shipment Inspection

Final inspection and container sealing before goods leave the factory.

Reporting & Dispatch

Weekly status reports, document verification, and shipment & logistics coordination through to dispatch.

QUALITY ASSURANCE

Four-Point Inspection

Our standard fabric inspection system, with custom SOPs available for a client's specific requirements.

Lab-Verified Yarn Testing

Moisture content, weight, thin/thick places, neps, strength and hairiness measured against buyer tolerances via reputable labs.

Daily In-Line Inspection

Shade approvals, trims & accessories approval and production monitoring, tracked daily through the order cycle.

COMPLIANCE & AUDIT

Factory, social, security, technical and environmental audits against local, international and C-TPAT requirements — thousands conducted to date. We audit to your checklist, or ours.

Social compliance

C-TPAT security

Technical

Environmental

ISO 9001 consultation

Pre-Shipment Inspection

Final inspection and container sealing before goods leave the factory, avoiding problems before they reach you.
